

Journal of *APPLIED BIOMEDICINE*

ISSN 1214-021X (printed)

ISSN 1214-0287 (on-line)

Volume 10 (2012)

Subject Index

A

absorption 71
ABTS 155
acetylcholinesterase 187
acid 155
activation 51
age-related-change 109
alternative model 35
amifostine 1
anthocyanin 41
antigen 169
antioxidant 1, 41, 91, 155, 187
APOB 19
architecture 103
arthritis 41
assay 35
ATF-2 51
atherosclerosis 91, 177
atorvastatin 19

B

biochemistry 187
biological application 1
biomedicine 137
bispyridinium oximes 71
bone regeneration 195
brain 91
burn patient 9

C

C2C12 myoblast 63
C-60(OH)(24) 1
cancer 51
capacity 155
CELSR2/PSRC1/SORT1 19
cell 9, 51, 63, 91, 137
cell differentiation 103
cell interaction 9

chemical warfare 187
cherry 109
chip 137
cholesterol 19, 91
choline deficient diet 119
chromosome 103
cilostazol 177
CILP2/PBX4 19
circadian rhythm 29, 109
Clerodendron glandulosum 119
collagen 9
coronary disease 19, 91
corticosterone 109
cotton leaf worm 35
CREB 51
cytokine 41

D

dendritic cells 177
differentiation 63
disease 63
dislipidemia 19
DMPD 155
DNA synthesis 51
DPPH 155
drug discovery 137

E

electrophoresis 29
electroporation 137
Elk-1 51
enterocyte 51
expression 63
extract 155

F

failure 91
fatty liver-disease 119

fibroblast 9, 63
fibrocyte 9
fibrosis 63
flavones polymethoxylated 91
football 63
fraction 29
FRAP 155
free radical 79, 155, 195
fullerenes 1
fusion 169

G

genome-wide association 19
green tea extract 119
Gynostemma pentaphyllum 119

H

healthy-men 109
hen-shi-ko 119
hepatic steatosis 119
herbal medicine 119
heterochromatin image optical density 103
HI-6 71
HIV-1 protease 1
HPLC 71
horse 29
hypercholesterolemia 91

I

identification 9
image analysis 51
immune system 41, 79
immunosenescence 79
in vitro 35
induced oxidative stress 79
inflammation 41
injury 91
insulin resistance 119
ionizing radiation 1
irradiation 1

K

K203 71
keratinocyte 9

L

lab-on-chip 137
LDL-cholesterol 19
leukemic myeloblast 103
linden bug 35
lipid level 19
lipid peroxidation 109
lipopolysaccharide 177
liquid-flow 137
lowering response 19
lymphocyte 79

M

macrophage 35, 79
marrow 9

melatonin 41, 109, 155
mice 71, 79
microfluidic 137
microchannels 137
microreactor 137
micro-total-analysis system 137
MPT63 169
MPT83 169
Mycobacterium tuberculosis 169
myofibroblasts 9, 63

N

N-acetylcysteine 79
nanoparticle 1
NBT 35
nerve agent 71, 187
NF- κ B 177
nitroblue tetrazolium-reduction 35
nocturnal rest 41, 109
normal dog 29
nucleus 103

O

ob/ob mice 119
obidoxime 71
old ringdove 41
ortanique 91
osteoporosis 195
oxidative-metabolism 109
oxidative stress 91, 119, 187, 195
oxygen 91

P

p21 51
p53 51
particle ingestion 35
pathway 51
PCSK9 19
performance liquid chromatography 71
phagocytosis 35, 109
pharmacogenethics 19
phosphorylation 51
photodynamic therapy 1
photoperiod 29
phytocompound 119
plasma 41, 71
platform 137
poisoned rat 71
polyherbal formulation 119
population 19
power frap 155
pralidoxime 71
prematurely aging mice 79
progenitor 9
protection 1
protein 29, 51
pulmonary-fibrosis 9

R

radiation 1, 51

radioprotection 1
rat 1, 41
recruitment 9
redox state 79
regeneration 63
ringdove 41, 109
risk 19

S

sarin 187
seasonal 29
serotonin 109
serum 29, 109
Sida rhomboidea 119
Silybum marianum 119
skeletal muscle injury 63
slug flow 137
soman 51
statin 19
steatohepatitis non-alcoholic 119
Streptopelia risoria 41, 109
strontium substituted bioactive glasse 195
superoxide dismutase 1

sweet cherry 41
system 137

T

tear production 29
therapeutic efficacy 71
thiolic antioxidant 79
total antioxidant capacity 109
transforming growth factor- β 1 63
treatment efficacy 19
triglycerides 19
tuberculosis 169

V

vitamin E 79, 91
VX 51

W

wound healing 9

Y

young 41
