## Subject Index

### A

acetylcholinesterase 27  
*Aerva lanata* 81  
aging 131  
AIDS 139  
alloxan diabetes 81  
amlodipine 153  
amperometric 57  
antihyperglycaemia 19  
antihyperglycaemic activity 81  
antimicrobial activity 117  
antioxidant enzymes 89  
antioxidant system 195  
antioxidants 165  
aorta 203  
apoptosis 153, 203  
AR42J 211  
argyria 117  
argyrosis 117  
atherosclerotic plaque 1

### B

bioequivalence 39  
biochemical studies 105  
biosensor 27, 57  
blood plasma 195  
body weight 81

### C

calcium 153, 211  
cancer 131  
*Capra hircus* 73  
carbohydrate metabolizing enzymes 19  
*Cardiospermum halicacabum* 19  
caspase-3 211  
CD4<sup>+</sup> 139  
cell 211  
cell count 139  
chronic administration 187  
chronohaematology 65  
circadian 65, 131  
circadian rhythms 177  
clinical implications 1  
clock gene 65  
C-peptide 105  
cross linking 27  
cyclooxygenase-1 97  
cyclooxygenase-2 97  
cytochrome c 211

### D

daily rhythm 73  
detection 15

diabetes 31, 89  
diabetes mellitus 105  
diabetic rats 19  
dimethyl-BAPTA 211  
disease 47  
dog 147  
dual-source multidetector-row CT 1

### E

electro-acupuncture 147  
electrochemical 27  
electrochemical biosensors 57  
electromagnetic field 153  
eNOS 203  
enzyme electrode 57

### F

FDG-PET/CT 1  
flavonoid 165  
fragment analysis 15

### G

genetically altered 47  
glycoproteins 105

### H

haemostasis 65  
healthy volunteers 39  
heart 187  
*Helicteres isora* 89  
histology 187  
HIV 139  
HNPPC 15  
human health 117  
hypercholesterolemia 203  
hyperlipidemia 165

### I

immobilization 27  
immunity 65  
immunosensor 57  
impedimetric transducer 57  
infection 139  
iNOS 203  
insulin 19  
intravascular ultrasound 1  
invasive methods 1  
ionizing radiation 195

### L

L-arginine 203  
lipid hydroperoxides 165  
lipid peroxidation 89

## Subject index

lipids 31, 139  
lipoproteins 31  
liver enzymes 139  
loss of heterozygosity 15

### M

malaria 187  
medicine 47  
melatonin 65, 177  
memantine 39  
Meridian charts 147  
mice 97, 187  
microsatellite instability 15  
mitochondrion 211  
motor activity 73  
mouse 47  
mutant 47  
mutation 131  
myocardium 187

### N

nimesulide 97  
nitric oxide 203  
nitrite levels 203

### O

OGTT 81  
optimization 27  
organism 195  
oxidative stress 153

### P

pancreatic acinar 211  
pharmacokinetics 39  
pineal gland 177  
plasma 177  
platinum electrode 27  
potentiometric 57  
principles 57  
programed cell death 211

prostaglandins 97  
pterostilbene 31

### Q

quinine 187

### R

rat 153, 177  
Ru360 211

### S

seasonal 65  
selected parameters 195  
seminal vesicle 97  
serotonin 73  
serum glucose 81  
serum lipids 203  
silver nanoparticles 117  
silver toxicity 117  
sleep 131  
Sterculiaceae 89  
streptozotocin 19, 105  
superoxide 65

### T

*Terminalia chebula* 105  
thapsigargin 211  
three-dimensional rotational angiography 1  
tryptophan 73, 177

### V

veterinary practice 147  
virtual histology 1

### W

wake 131  
welfare 47
